Blackstone Youth Empowering makes a lifelong impact in the lives of youth by offering multifaceted mentorship programs and services that raise up resilient leaders and empowers them to achieve their dreams.

Our program's overarching goal is to empower our youth to be their own best advocates and take their learning and future into their own hands.

Our program includes building positive character attributes, developing resiliency traits, and increasing perceptions of self-efficacy by identifying and developing individual strengths in the youth we serve.

Mentoring Program

Community-based intervention designed for at-risk youths aims to improve the life choices that our young people makes, promote education, and life skills.

How Our Mentoring Program Works

Our program is designed to reshape negative ideologies about education and their own capability through incorporate an understanding of each youth as it relates to their own environment. This means we engage each person at a level to understanding their academic needs, their individual strengths, as well as their everyday lives and barriers they face.
